About Me:

As a highly skilled Full Stack Developer and System Administrator, I bring a strong track record in building robust, scalable applications and optimizing system infrastructure. I am proficient in backend development using Django and adept at front-end technologies including Vue.js, React.js, and Next.js. My expertise extends to DevOps practices, Linux System Administration, and CI/CD pipelines, ensuring seamless deployments. I am committed to delivering high-quality solutions that meet and exceed project requirements while fostering a collaborative work environment. My aim is to leverage my skills and knowledge to make meaningful contributions to innovative projects.

Work Experience:

Back-End Developer & Devops

Oct 2024 - Present

Canada Prime Jobs, Vancouver, Canada

- Designed a scalable backend using Django and GraphQL.
- Optimized the system to handle hundreds of thousands of requests per second.
- Automated infrastructure setup using Terraform
- Architected infrastructure with Google Cloud services (Cloud Run, SQL, MemoryStore, Build, Pub/Sub, Vision).
- Integrated OpenAI's API for AI-driven features.
- Created reusable Django PyPI packages for broader use.
- Implemented a resilient system with high scalability and efficiency.

Technical Lead, Full-Stack Developer & Devops

Sep 2024 - Present

Canada Prime Jobs, Vancouver, Canada

- Led a team to deliver a scalable, production-ready application.
- Managed the codebase, ensuring quality and scalability across frontend and backend.
- Architected serverless infrastructure with Google Cloud services (Cloud Run, MemoryStore, SQL, Sched-uler, Pub/Sub).
- Streamlined deployments with CI/CD pipelines using GitLab and Google Cloud Build.
- Containerized the project for consistent environments.
- Integrated OpenAI assistants and Whisper for AI-driven features.
- Developed an efficient and flexible web scraping mechanism.
- Contributed to a user-friendly landing page with WordPress Elementor.

Full-Stack Developer

Aug 2024 - Present

Dubai, Dubai, Uae

- Developed a travel and tourism services platform to streamline bookings and enhance customer experience.
- Engineered a scalable backend system using ASP.NET Web-API, incorporating Kafka and architecture principles to ensure efficiency.
- Created a modular Telegram bot using Python-Telegram-Bot, optimized for payment task efficiency and maintainability.

Full-Stack Developer

Jul 2024 - Present

Iran, Tehran, Iran

- Developed web software for compiling and editing LaTeX documents with a Node.js backend and Angu-lar/React frontend.
- Integrated WebSocket technology for real-time updates, ensuring seamless communication between users.
- Implemented version control integration to enable efficient collaboration and document tracking.

Full-Stack Developer

Jul 2024 - Present

Iran, Tehran, Iran

- Developed LaTeX editing software using a Node.js and Go backend with an Angular and React frontend.
- Incorporated real-time features like OT and grammar-check algorithms, enhancing the editing experi-ence.
- Designed a cloud-based architecture for multi-user collaboration, ensuring scalability.

Linux System Administrator

May 2024 - Jun 2024

Iran, Tehran, Iran

- Automated DevOps processes with Bash scripts, improving deployment efficiency.
- Maintained server infrastructure for optimal performance and uptime.
- Configured an enterprise mail server to ensure secure communication.

Full-Stack Developer & Devops

Oct 2023 - Present

Iran, Tehran, Iran

- Developed web software using Django, improving system performance, query speed, and security.
- Managed Linux servers and established continuous delivery pipelines to streamline updates.
- Collaborated on UI/UX enhancements, ensuring intuitive design and user experience.
- Refactored code structures, enhancing maintainability and scalability.
- Optimized database designs for new features, improving system functionality.

Full-Stack Developer & Devops

Aug 2023 - Sep 2024

Iran, Tehran, Iran

- Developed an enterprise leasing management platform with Django and Bootstrap/HTMX for the frontend.
- Implemented a robust ABAC (Attribute-Based Access Control) system for enhanced feature management.
- Automated documentation generation using LaTeX for consistency.
- Collaborated on UI/UX designs, ensuring a smooth and responsive user experience.

Linux System Administrator

Aug 2023 - Jun 2024

Iran, Tehran, Iran

- Automated DevOps processes with Bash scripts, improving efficiency in maintenance tasks.
- Maintained server infrastructure to ensure optimal performance and minimized downtime.
- Configured and maintained an enterprise mail server for secure internal communications.

Certifications:

• 2009 IELTS (9.0)

Educations:

Bachelor Of Electrical Engineering

Sep 2023 - Present

Ferdowsi University Of Mashhad (Fum)

Additional Sections:

• Languages: French, Chinese (Simplified), Chinese (Traditional), Urdu
• Skills: Python, Backend, Django, Programming, Labview, Innovation, Creativity, Problem Solving, Time Management, Team Leadership, Fast Learner, Critical Thinking, Communication, C#, Js/es, Typescript, Go, C, Graphql, Bash, Fast Api, Flask, Scrapy, Gin, Asp.Net, Next.Js, React.Js, Vue.Js, Angular, Node.Js, Express.Js, Mui, Ant Design, Htmx, Three.Js, Semantic Ui, Bootstrap, Alpine.Js, Tailwindcss, Aws, Google Cloud, Hetzner, Asia Tech, Ferdowsi Cloud, Arvan Cloud, Postgresql, Mysql, Redis, Mongodb, Mssql, Vscod, Git, Gitlab, Github, Rabbitmq, Kafka, Docker, Ubuntu Server/Desktop, Windows, Etex, Software Architecture, Nginx, Cocalc, Moodle, Google Sheets, Ml/dl, Llm, Ci/cd, Violin
